

Post-it® Note Addition

Bolster understanding of basic math with Post-it® Notes.

Subject:

Math

Topics:

Math, Grades

1st-8th, Counting, Multiplication, Division, Addition, Subtraction

Materials:

1 pack 3x3 Post-it® Super Sticky Notes, a group of like objects

Grade Level:

1st-8th

Estimated Time:

10-20_{min}

01

Begin with two Post-it® Notes. Draw an equal sign (=) on one and a plus sign (+) on another.

02

Stick the Post-it® Notes on a student's desk in the correct order

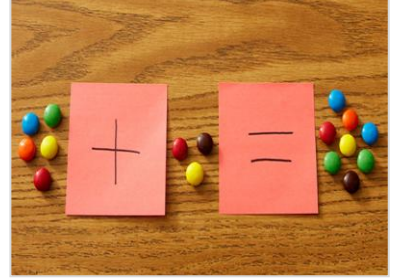

03

Take a group of like objects, such as pieces of candy, cereal, paper clips or coins, in different amounts separated by the plus sign.

04

Have your students rearrange the objects to help visualize the answers to the problems and watch the mental math grow.

05

The same concept can be modified to teach addition, multiplication, or division.
